

# HEXABLOK PALLET COMPONENTS

Strong, versatile and cost-effective — three reasons to choose HexaBlok™ components for one-way shipping applications.

And here's another...  
**recyclability.**

Wrapped construction of HexaBlok™ components resists the effect of rough handling associated with forklifts.

## Feature

- Remarkable structural strength
- Lightweight
- Safe, clean
- Recyclable; 100% paper
- Easily customizable

## Benefit

- Capable of supporting the heaviest of loads
- Saves on shipping costs
- Easy to handle, no nails or splinters
- Eliminates EPS and wood disposal costs
- Buy one SKU for multiple needs

## HEXABLOK™ STANDARD BLOCK\* & RUNNER\* CONFIGURATIONS
